

Dr Dick Rauh

## ASBA *Live* IN NEW YORK!

### 28TH ANNUAL MEETING & CONFERENCE

#### Sketching Trees Outside Dr Dick Rauh

**Saturday October 22 morning - meet at Watson Education Building.**

Board your motorcoach for an 8:15 am departure. Beverages and snacks are permitted on the motorcoach. Arrive NYBG at approximately 8:45 am. Disembark the motorcoach and walk a short distance to the Watson education building where you will meet your class.

If the weather permits, we will walk a bit to find some isolated trees to draw in situ using technical pens to get a direct impression. If time allows, we will draw a few specimens, stressing foliage mass, branch anatomy and bark texture. Dress warmly. Campstools will be provided. If the weather is a problem we will draw indoors or in a covered area.

The motorcoach will depart at 12:00 noon, arriving back at the hotel at approximately 12:30 pm.

#### **Materials List**

Micron pens from .005, .01, and .05 and a decent surface to draw on. I prefer a small size hot press watercolor block to avoid wind interference. Dress warmly. We will have campstools available for use outdoors.
