**Phipps Conservatory Tour**  
**[www.phipps.conservatory.org](http://www.phipps.conservatory.org)**

Friday, September 27  
9:30 am – 11:30 am

The Phipps Conservatory and Botanical Garden was founded in 1893 by Henry Phipps and was a gift to the city of Pittsburgh. Its original Victorian steel and glass Conservatory is now joined by one the greenest buildings on earth, the Center for Sustainable Landscapes. Join us for this docent led tour of the Phipps Conservatory's Center for Sustainable Landscapes.

***Center for Sustainable Landscapes Tours*** are 60 – 90 minutes in length and focus on the sustainable aspects of the building and landscape of our new research, education and administrative facility, designed and built to be one of the greenest buildings on Earth. The tour covers topics including green design, blurring the line between the built and natural environments, renewable energy, rainwater harvesting and green roofs
